Introduction

Our ready-to-order Summer 2025 collection brings together our best-selling designs and insight into what will continue to sell throughout the season. Once you've reviewed the styles, take note of their codes and select the fabric colour or print you'd like for production.

We priced each style two ways: In plain using **Reclaim Prime** from the US or **Vita** from Carvico in Italy, and in Digital prints in **REPREVE®** also from the US. As Reclaim Prime & Vita are virtually identical in hand feel & flexibility, it allows you to select your plain colours from either fabrics.

Fabrics are chlorine resistant, offer UPF 50+ protection, superior body-sculpting properties with a super soft hand feel.

After your order is finalized, we'll apply your custom-branded logo as a heat press on the inside back, making your collection as distinctive as any on the market.

Selecting Fabrics & Colours

We offer high-quality recycled fabrics imported under a tax-free exemption. This allows us to price your collections lower than others in Bali will price using locally sourced Bali fabrics.

Our fabrics come from globally recognized suppliers such as Carvico and, ECONYL® (Italy), and REPREVE® (USA), crafted from reclaimed fishing nets, plastic bottles, and post-consumer waste.

Choose from over 75 trending colours in stock, ready for immediate selection without lengthy import waits.

If your desired colours are not in stock, we import them by air weekly.

See the Stock [Fabrics and Colours](#).

Stock Colours

We hold 50,000 meters in 85 trending colours, the largest stock of imported recycled swimwear fabrics in Bali.

Working with stock colours offers two major advantages. Firstly, there is no MOQ per colour, allowing you to add more colours to your collection and the speed with which we can produce your orders. If you request colours to be imported, they come roll-based and take 4-6 weeks to arrive.

Importing Colors not in Stock

If you can't find your colours in our stocks, we import them in 70m lots. Please discuss colour and print requests before you start.

Prints

When it comes to printing fabrics, it's our speciality. We offer a superior digital print service on REPREVE® from the US, the softest fabric in our lineup, due to its colour saturation, luxurious hand feel, exceptional elasticity, and long-lasting durability. Contrary to popular opinion, prints are much easier and faster than dying plain custom colours.

Prints come in 70m rolls and take approx. three weeks to arrive. Even digital prints take longer than printing locally in Bali, the difference in the colour saturation and hand feel is off the charts.

Read more about [Adding Prints](#).

Fabric Swatch Packs

Get a feel for quality before you commit. Our affordable swatch pack includes real fabric samples, matching laser-printed colour cards, and a curated selection of premium accessories—many of which can be custom-branded. With everything in hand, choosing the perfect fabrics, colours, and finishes for your collection has never been easier.

[Shop Fabrics Packs](#)

Sampling

Samples are assembled in our dedicated samples studio in plain colours only. If you'd like to make some changes to our designs, that's also possible. For example, you can adjust the coverage of a bikini bottom, then all we require is a sketch and some notes of each edit, costing \$30 per pattern edit. You're also welcome to mix and match your own designs with ours.

Requesting samples

Whether you're ordering custom designs or ready-to-order styles, request samples by sending front and back screenshots, tech packs, or clear line drawings. Simply [email](#) or [WhatsApp](#) us your styles, fabric colours, and prints, or fill out our [sample request form](#).

Ready-to-order styles can also be purchased directly from [our shop](#). Whatever style code you select will look exactly like what you see in our catalogue in your chosen colours and prints, making sampling unnecessary (unless required for a photo shoot or fitting).

Many brands skip sampling, placing a bulk order, saving both time and money. If you'd like to discuss your sample ideas or clarify any details, [schedule a callback](#) with a swimwear sampling specialist.

Upon receipt, we will contact you. Only once we are clear on your requests will we send you a sample invoice. With payment received, on request we provide a 2D mock-up of your styles in the correct colours and or prints, allowing you to review your selections and make any adjustments before sampling begins.

Pro Tips

- Get pricing sorted early on. With prices in hand, you'll be able to estimate landed costs, helping you calculate retail prices and profit margins.
- Aim for at least a 3.5X markup on wholesale prices. For example, bikini bottom that cost \$20 wholesale often retail for \$99, and bikini tops or bikini bottoms at \$13, typically retail sell for \$75.

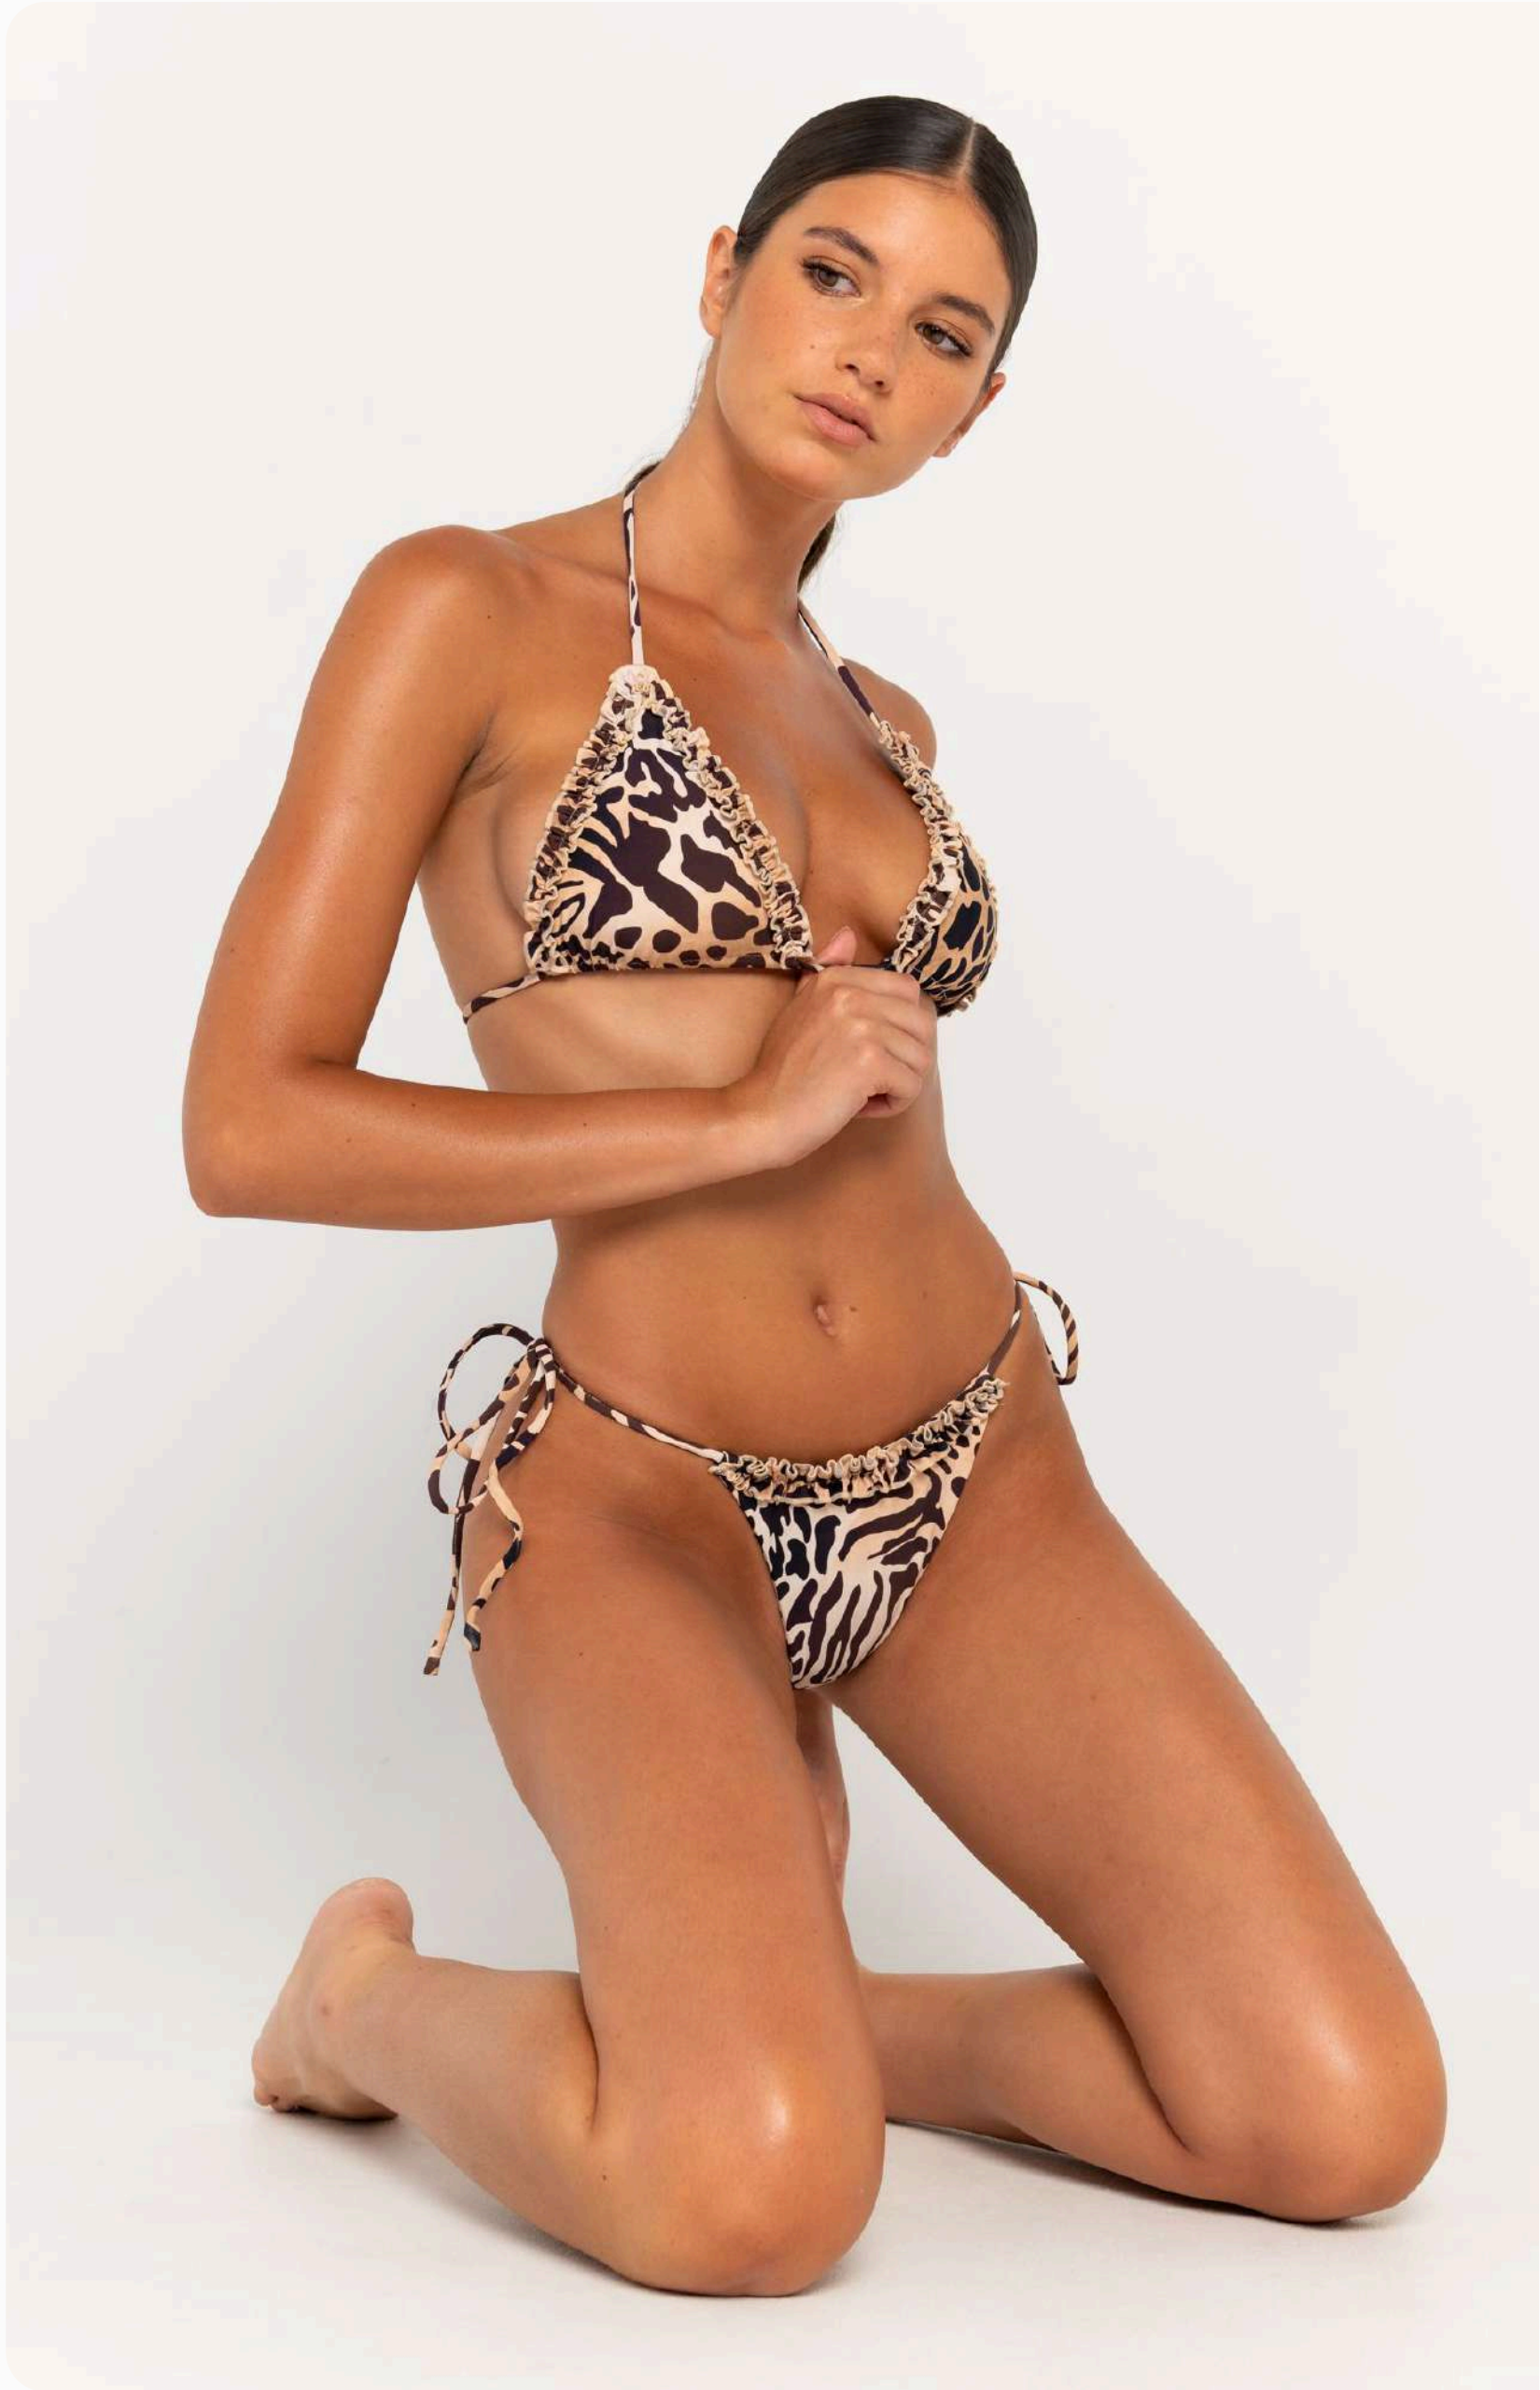

A promotional image for a swimwear collection. The left half of the image has a solid magenta background with white text. The right half shows three women from the waist up, standing in shallow ocean water under a clear blue sky. The woman on the left is wearing a red bikini, the woman in the middle is wearing a dark brown one-piece swimsuit with a side cutout, and the woman on the right is wearing a blue bikini. All three are looking towards the right.

A timeless, flowing skirt that effortlessly elevates any look, perfect for both casual and sophisticated occasions.

Accessorizing

We encourage brand owners to accessorize their pieces, carefully matching each accessory to the fabric’s color or print. Well-chosen accessories give any collection and amazing premium look, increasing its value, driving more sales with higher profit margins.

A classic example is a black bikini with a silver heat press and metal accents like bikini clips in rose gold—one elevating the other.

Adding custom metal charms is a popular option requested by many clients. Metalwork requires a mould with a one-time cost of 170 USD. Since Bali accessories are low quality we import from manufacturers who produce for brands such as Lululemon and Frankie’s Bikinis.

For any type of accessory other than what we offer, then we suggest to search [alibaba.com](https://www.alibaba.com).

Custom Branding

Adding custom-branded logos to any collection enhances the entire line. Well-coordinated branding makes your brand more recognizable, helping you command higher prices, drive more sales, and secure larger reorders. Strong branding supports business growth and reinforces your brand identity, building long-term customer loyalty.

We apply logos across various elements, including heat presses on the inside back of each piece, hygienic liners, metal bikini fasteners, packaging, and more. These finishing touches give your swimwear a premium feel and deliver that WOW factor when orders are unpacked, adding real value to your collection and increasing profits.

Since branded accessories are required before production, we recommend organizing them during the sampling phase to prevent delays.

Read more on custom [branding & accessorizing](#).

Artwork

For custom branding, including heat press logos and accessories, we require vector-format graphics in EPS, PDF, CDR, or TIFF (300 dpi, repeatable, and to scale). If you need assistance, our graphic designers are available to help—often at no extra cost. Important: If you want samples with custom heat-press branding, we need your artwork and layout before sampling begins.

Need help? Our expert graphics team can assist with logos and layouts, often free of charge.

MOQ's

Our low Minimum Order Quantity (MOQ)—3 pieces per size and colour, 30 pieces per style, and 300 pieces per PO—offers the perfect balance of variety and cost-effectiveness.

For example, you can order five bikini sets in four colours, with three pieces per size and colour, totalling 30 pieces per design.

Note: A bulk PO with us will only buy you a maximum of 200 units from other Bali swim suppliers.

Top-Ups

As we know, some styles, colours, or sizes will always sell faster than others. To resolve you can place your second or subsequent orders as top-ups.

Top-up MOQ: Total 144 pieces, 36 pieces per style and 6 pieces per colour and size

Example: Two bikini top-and-bottom sets, 36 per style.

Condition: We only accept existing styles produced in stock colours.

Placing Orders

Ordering from our ready-to-order collection is quick and simple. Add the product codes you like to [the form](#), along with your preferred fabric and colour. Specify the number of units for each fabric, colour, print, and size.

Prefer a different way? You can also place your order through [email](#) or [WhatsApp](#).

Choose your fabrics and colours [here](#).

Have custom designs? Send clear front and back images of your shapes as screenshots or line drawings, with notes to clarify your ideas.

Once we receive your order, we'll get back to you to confirm your selections and discuss payment options before we send an invoice.

A woman with long, dark, wet hair is posing on a sandy beach. She is wearing a white, strapless, one-piece swimsuit with a cutout at the waist. She is leaning back on her elbows, which are planted in the sand, with her legs bent and feet in the shallow water. The background is a calm blue ocean under bright sunlight. The text "SWIMWEAR BALI" is overlaid in the center of the image.

SWIMWEAR BALI
