WHY CHOOSE US

Custom Designs, Our Speciality

With over 30 years of experience, we've become Bali's largest manufacturer of custom-made swimwear to clients' specs. We are equipped with specialised machines built to produce only the highest-grade swimwear, operated by a skilled sewing team. Upon completion, every article is sent to our quality control department, where it is meticulously checked through three robust quality control layers before being bar-coded, packed in biodegradable bags, and readied for DHL collection.

Tax-Free Fabric Imports

We are the only company in Bali with an exemption certificate for overseas fabrics, allowing us to import higher-grade recycled materials tax-free and save 35% on fabric landed costs. This allows us to offer you swimwear at much more competitive prices, even though we incorporate super-soft, higher-grade fabrics into your designs.

85+ In Stock Colours

We hold the largest stock of recycled Italian and American colours in Bali, ready to cut the moment you send in your bulk PO, without the delays associated with importing fabrics. Stock colours are not leftovers; they are flown in as fresh rolls weekly, as orders are cut in production.

Digital Perfection

A perfect fit starts with a perfect pattern. Patterns are created digitally using state of the art 2D AutoCAD digital software, as per your handover. Working digitally allows us to grade your designs to [international body sizes](#) with mm precision, far superior to traditional paper patterns. Please check our size guide to ensure they fit your custom base.

Ready To Order Collections

If you need some inspiration, we produce two collections annually of our best-selling designs and trending designs. Select the styles you love to be made in any fabric colour or print. To make our design uniquely yours, we add your custom-branded logo as a heat-press to the inside back of each article.

WHAT WE DO

Custom Designed Swimwear

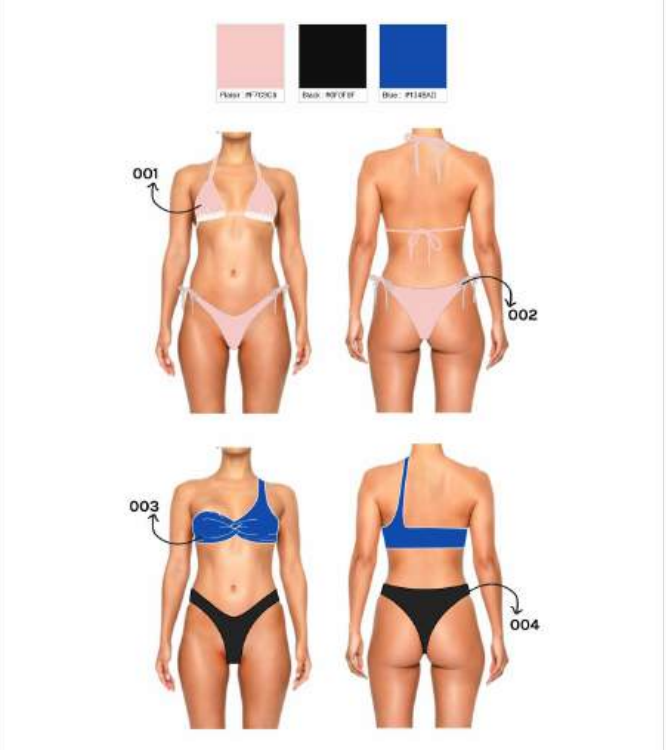

Creating custom swimwear from screenshots, clear line drawing or tech packs takes experience and precision. Our digitally crafted patterns and refined production process ensure your designs come to life exactly as envisioned.

Once your pricing is approved, we provide a free 2D mock-up of your collection, giving you the opportunity to make final adjustments before production begins, ensuring accuracy, consistency, and a product that fits flawlessly.

Ready To Order Swimwear

Prefer something off the rack? We offer a curated selection of ready-made styles, including refreshed bestsellers and trend-forward designs for 2026. These are crafted with the same care and premium materials as our custom lines.

You can order directly from our [online store](#) or include design codes in your [sample form](#). Once submitted, a swimwear specialist will walk you through the next steps.

EXAMPLE PRICES

Prices in USD, include full production using premium imported recycled fabrics

The above styles can all be found in our latest Spring 2026 Swimwear [Ready To Order Catalogue](#)

PRICE YOUR DESIGNS

Ways to Handover

To cost your collection we require your selected designs in your chosen fabrics, in plain or print.

1

Custom Designs (Private Label)

Being specialised in assembling custom creations to clients' requests means in most cases, any design is workable. All we require is a detailed handover, including front and back screenshots, tech packs, or clear line drawings, along with any adjustments noted in the imagery supplied. Send your handover via [email](#) or as a [WhatsApp](#) message.

2

Ready-to-Order Designs (White Label)

Our ready designs are a collection of known bestselling and trend-driven styles for the 2026 season. All are graded to international body sizes, so what you see in [our catalogues](#), in your chosen colours or prints, is what you'll receive.

Add your selected codes to this [form](#) as an [email](#) or [WhatsApp](#), or samples can be purchased directly from [our shop](#).

Selection ready designs allows you to skip sampling and move directly to your Bulk PO, saving time and money in the sampling process.

What to Expect

In 2–3 days, we'll offer our lowest prices for premium-quality products. Every article will be custom-branded with your iconic logo, heat-pressed to the inside back, bagged, bar-coded and boxed, ready to sell the moment they arrive.

Pro Tip: Please keep your handovers to a max of 1 style per page (when possible). Clear, precise handovers result in faster costings and samples arriving exactly as expected in the first round.

FREQUENTLY ASKED

Q: How do I get started?

A: Please send us your designs or choose from our ready-to-order swimwear collection. Once we have your styles, we prepare a quotation covering fabrics, branding, and production within 2 to 3 working days.

Q: What is the MOQ and production timeline?

A: For custom designs, the MOQ is 400 pieces. For our ready-to-order designs, it is 300 pieces across the entire collection in as many styles, colours, and sizes as you require. Production takes from three to six weeks once all fabrics, approvals, and payments are complete.

Q: Can I order samples before the bulk?

A: For custom designs, we strongly recommend sampling. For our ready-to-order designs, it is optional. What you see in our catalogues is what you will receive in the fabrics and colours you requested.

Q: What fabrics do you use?

A: We hold Bali's largest stock of imported recycled fabrics from the US, Italy, & Korea. We keep 85 plain colours in stock, flown in weekly on fresh rolls.

Q: Do you offer digitally printed swimwear production?

A: Yes. We are the only swimwear manufacturer in Bali offering digital printing with OEKO-TEX certified inks and lifelike imagery that never fade on super-soft recycled American nylon. Send artwork in vector format when possible.

Q: Do you offer custom branding?

A: Yes. We can apply your logo to heatpress labels, hygienic liners, metal trims, and biodegradable packaging on request. Your merchant will guide you through branding approvals during sampling.

Q: Where do you ship, and how long does delivery take?

A: We ship worldwide with DHL and FedEx, with delivery usually within 3 to 5 days. Orders are fully insured, and our logistics team handles export documents for smooth customs clearance..
