

A promotional photograph for a swimwear collection. Two models are lying on their stomachs on a white surface. The model on the left is wearing a white, ribbed, halter-neck bikini. The model on the right is wearing a colorful, patterned bikini with floral and abstract designs in red, yellow, blue, and purple. The background is a plain, light-colored wall.

Spring 2026

Ready-To-Order Collection

SWIMWEAR BALI

Introduction

Start here to build your next collection with ease.

This is Spring Summer 2026 Collection — a curated, ready-to-order range inspired by proven best-sellers and the trends shaping 2026 and beyond. Designed to deliver fast, flexible results for your brand.

Every style shown here is available to order as-is, with the option to:

- Add your own custom logo as a heat press on the inside back
- Adjust fit, tweak details, or combine with your own custom designs
- Assemble in your chosen colours from our stocked or imported fabrics

Choose entirely from our designs, or mix them with yours — whatever works for you also works for us.

Each style is pre-patterned, graded to international body sizes, and ready for production. You can:

- Skip sampling and move straight to a bulk order
- Or request samples first — delivered to your door via DHL in just a few weeks

However you choose to start, the process is built to be smooth, fast, and fully tailored to your brand.

Fabrics & Colours

Every collection starts with fabric. Ours are sourced from some of the world's leading mills — including Carvico and ECONYL® in Italy, and REPREVE® in the USA — all made from recycled materials like fishing nets, plastic bottles, and post-consumer waste.

But these premium blends do more than tell a sustainability story. They shape how the garment feels: silky yet supportive, sculpting but soft against the skin. We hold Bali's largest stock of high-grade imported swimwear fabrics, with 85+ colours ready to cut for immediate production — from soft neutrals to bold, saturated tones.

Choosing from stocked fabrics means no delays. But if your ideal shade isn't in stock, we can import it for you via weekly flights, with MOQs depending on the supplier.

All fabrics are:

- Saltwater and chlorine resistant
- UPF 50+ rated for sun protection
- Designed to sculpt the body with an ultra-soft hand feel

Fabric Swatch Packs

A simple, budget-friendly way to experience the hand feel and texture of all our fabrics. Each pack includes real fabric swatches, matching laser-copy colour cards, and a curated range of our most popular accessories.

Shop our [Fabric Swatch Pack](#) to start exploring.

How To Place An Order

Once you've selected your styles and fabrics, it's time to place your order.

Use our [Order Form](#) to list each style by code, along with quantities and sizes. You can order entirely from our ready-to-go designs, mix in your own customs, or edit any style to better suit your fit and brand.

Branding is included — your logo will be added as a heat press on the inside back of every piece.

Prices are shown per style, in plain Vita or print REPREVE[®], and are based on final quantities.

If you'd prefer to see samples first, we can assemble those within a few weeks and ship directly to you via DHL. Otherwise, you're free to move straight into a bulk production order — no delays, no rework needed.

Valora One Piece

KT-48778

Panel Underwire One Piece
with Cut Out

\$24.50 - \$26.40

Mix & Match with Custom Designs

If you'd like to blend our ready designs with your own custom creations, we are specialized in the assemble of custom swimwear. Send clear references as screenshots, tech packs, or line drawings with notes on fit, coverage, we can price them in your selected fabrics and colours, with your heat-press logo and optional branded hardware or trims added.

You'll receive a detailed estimate within two to three days.

Note: When submitting custom designs, please limit each page to one style for faster review.

Send: Email or WhatsApp are both fine.

Top Tips:

- Lock in pricing early to plan samples or bulk POs without surprises.
- Aim for a 4× markup. For example, a one-piece at USD 20 often retails for USD 99, while bikini tops and bottoms at USD 13 retail between USD 69–89 each.

Adding Digital Prints

Premium digital printing is our speciality. We print on American-made recycled REPREEVE® — a luxuriously soft, eco-friendly fabric. Its depth of colour, stretch, and durability make it ideal for achieving vibrant, long-lasting prints.

Requesting prints is faster than adding custom colours, making it a smart, efficient option for brands wanting a unique, trend-focused look.

Read more about [Adding Prints](#).

Branding & Accessories

We offer a curated range of swimwear accessories made from high-quality zinc alloy, electroplated to maintain brilliance and resist rust, tarnishing, and pitting. Finishes include gold, rose gold, silver, white, and gunmetal.

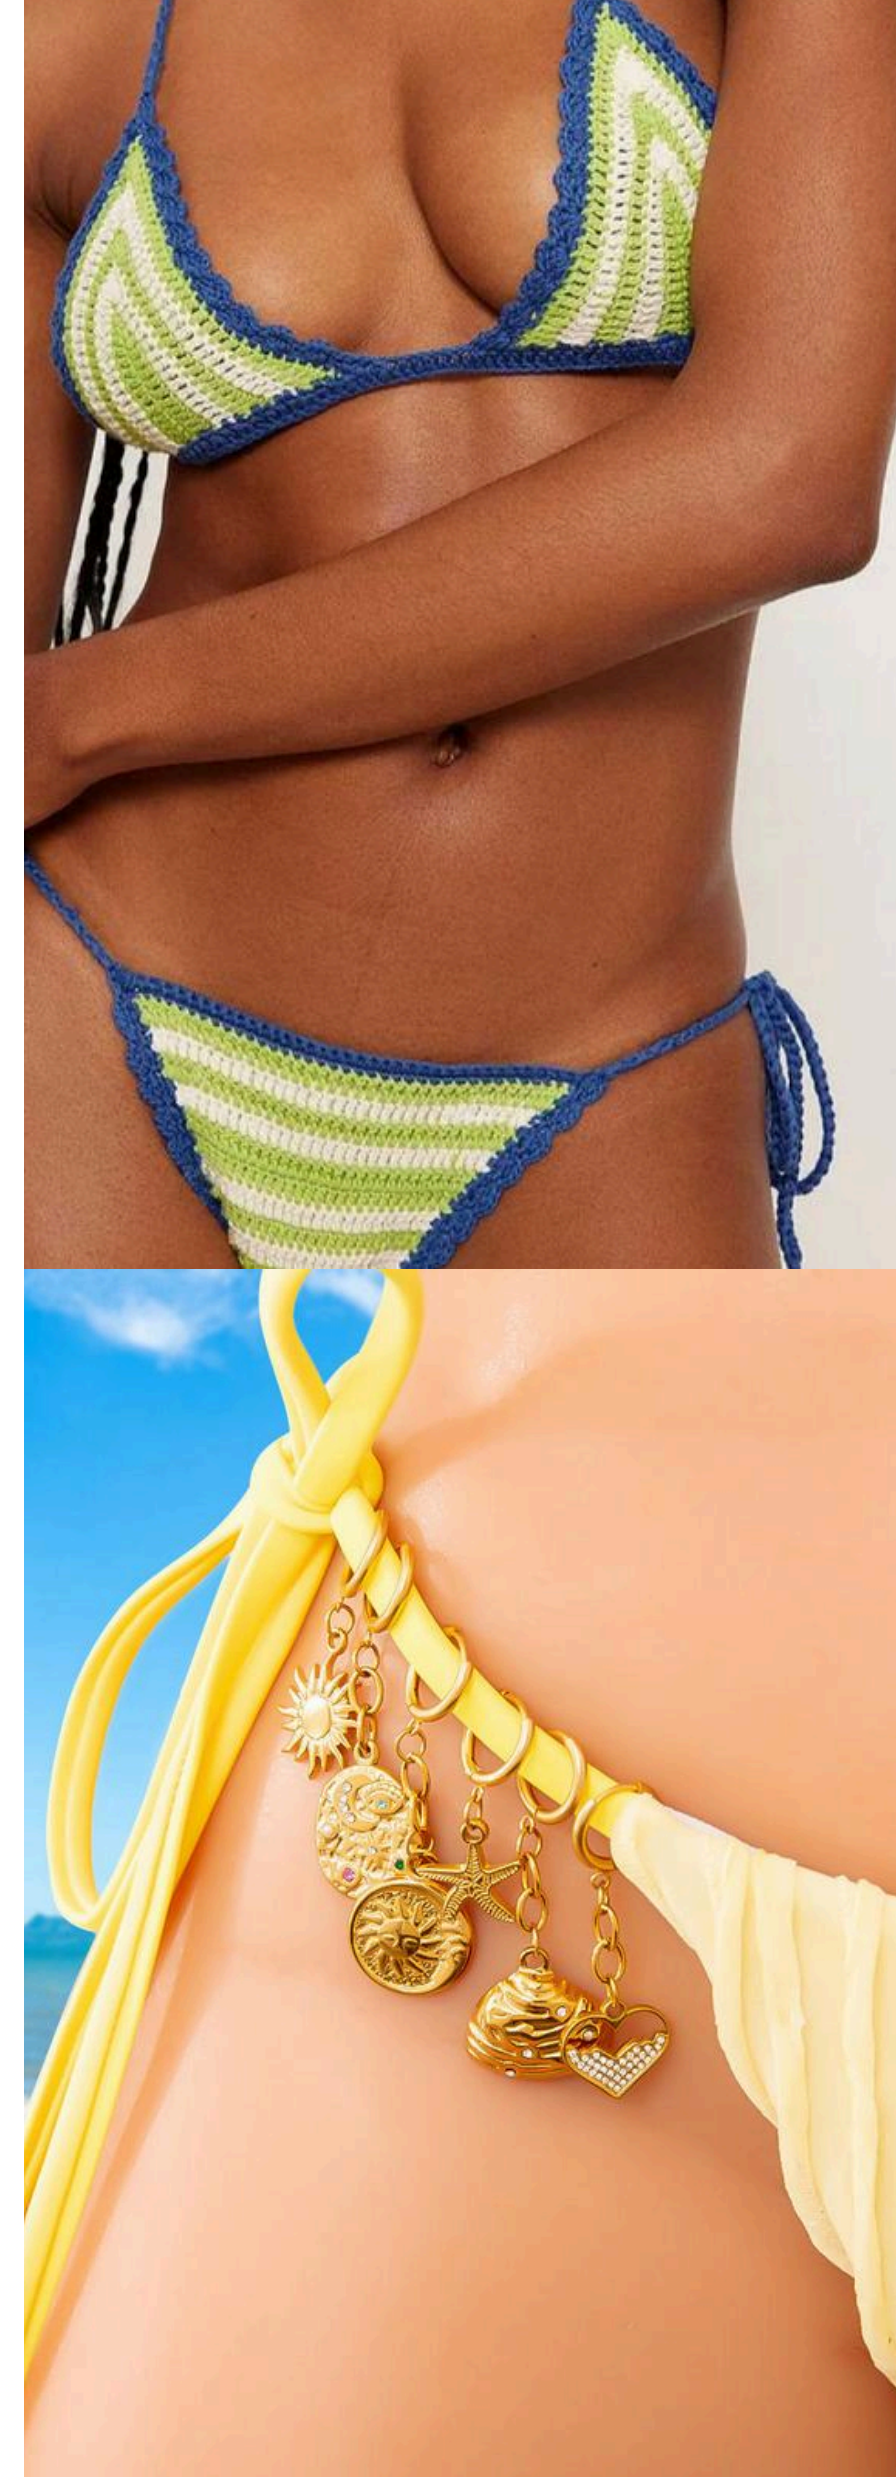

Our stock also includes metal charms, support cups, underwires, resin beads, and sequins. We're experts in appliqué and crochet detailing, especially around bikini edges.

Your logo is heat-pressed inside each piece as standard, and can also be applied to liners, fasteners, packaging, and other branded elements. Accessories are sourced overseas and applied in-house to ensure quality and consistency.

Branding helps justify premium pricing, boosts visibility, and supports repeat sales. To stay on schedule, provide your logo and heat-press layout during sampling. Your merchant will walk you through it.

Custom Branding & Accessories

Note: Brands that add charms or signature details consistently see stronger sales than those who don't.

Artwork

We require your logo artwork and layout files in vector format, high resolution, and to scale (EPS, PDF, CDR, or SVG) via [email](#) or [WhatsApp](#).

Your custom logo will be applied to every article via heat press, as well as any swimwear accessories on request.

Need guidance? Our graphics team can help prepare your logo files and adjust layouts in most cases, free of charge.

Contact Us

Let's Build Your Swimwear Brand

With over 30 years of industry experience, we know what it takes to produce a successful collection efficiently and with confidence.

If you need support, we're here to help. Schedule a call with one of our sample specialists to discuss your ideas — we'll help refine your range, suggest enhancements, and offer practical advice on fabrics, colours, branding, and logo placement. Brands that schedule a callback often launch sooner, smarter, and grow faster.
