From idea to *your door*

Simpler than you think

Every style in this catalogue has been designed, patterned, graded to international sizing, and fit-tested for fit and how the piece moves on the body. You're starting from a proven, production-ready base — not from scratch. Check our [Size Guide](#) before your first order to confirm the fit works for your market.

STEP 01

Build Your Collection

Head to our [shop](#) and choose your styles. Every piece in this catalogue is available to sample in any plain colour from our 100+ in-stock range — no waiting for fabric, no import delays. Want a colour we don't carry? Let us know during your enquiry, and we'll look into sourcing it for bulk — custom colours aren't available at sampling stage but can be arranged for your bulk order.

Prefer to mix in your own custom designs? See [Custom Designs page](#) for how that works.

STEP 02

Order Your Samples

Purchase your samples directly from the shop. Samples are produced in your chosen style and colour, and shipped to your door via DHL Express — reaching most global destinations in 3–5 business days. Allow 7 to 14 days to produce and dispatch.

STEP 03

Confirm Your Order

Happy with your samples? Get in touch with our team via [email](#) or [WhatsApp](#), and we'll send you our bulk order form. Once complete, we'll confirm your all-inclusive pricing — no surcharges, no surprises.

STEP 04

Bulk Production

With your order confirmed and invoice settled, we move straight into production. With stock fabrics and pre-graded patterns, your completed bulk order can be on your doorstep in as little as 4 weeks — individually packed, labelled, and ready to sell.

Not sure where to start or how to place your order? [Get in touch](#) — we'll walk you through everything.

You can select styles from more than one collection, in any fabric or colour.

Branding & Accessories

The details that make a brand.

LOGO BRANDING

A custom heat-press label is applied to the inside back of every article as standard. Your logo can also be applied to liners, fasteners, and packaging — all sourced and applied in-house for consistency across your full order.

HARDWARE & ACCESSORIES

High-grade zinc alloy hardware, electroplated for lasting brilliance. Available in **gold, rose gold, silver, white, and gunmetal**. Our stock includes metal charms, support cups, underwires, resin beads, and sequins — plus we're known for our appliqué and crochet edging work.

Brands that add charms or signature hardware consistently outsell those that don't.

Submit your logo and heat-press artwork when you confirm sampling.

ARTWORK REQUIREMENTS
