2 Ways to Sample

1. You can select the designs from our Shop, which are all pre-made in black size small using Comfort Luxe and Eco Olympus. Once selected we will prepare your collection ready FedEx within three days of receipt of payment.
2. Additionally, you may request that your samples be made in other sizes, fabric colours, and prints. As long as the fabrics and colours you select are in stock, then your collection will be ready within 3-4 weeks. In the event that the fabrics or colours are not in stock and have to be imported, we will require additional time to produce. Info on request.

You can see the complete Fabric selection [here](#)

Note

Any of our designs can be tweaked, for example, bum coverage can be adjusted to look more Brazilian, or cups & wires can be added.

See all the designs on the models [here](#)

To make the collection uniquely yours, we simply add a heat press with your logo, washing instructions, and size information to the inside back of each article.

Custom Branding & Accessories

1. We add your custom logo to the inside back of every article using a heat press. In addition, a number of other accessories can be branded upon request. When it comes to your production PO, the first we handle is your heat press & any custom brand requests. Therefore, don't skip this section or you could have to wait several more weeks for your order to be produced.
2. Samples are branded in-house using a small heat press machine solely for the purpose of checking your Logo & layout.
3. Read more on [Branding & Accessories](#).

Bulk Orders

Should you wish to proceed directly to bulk orders and skip sampling, this is possible, saving you both time and money. To place a bulk order, you will need to complete a [Bulk Order Form](#) with your designs, the fabric type and the total number of pieces.

Mock ups

Once you have received your prices & paid for your samples or bulk, we'll send back a free mock-up via email for your approval to start the process.

The advantage is that it lets you see exactly what your collection's colours & prints will look like, being quite unique & usually chargeable.

* This is not to be confused with a design service that we do not offer.

Example Mock Up

International Body Size Guide

We pattern & grade all designs using computerized 2D AutoCAD software and printers. You should ensure that our sizes & grades are appropriate for your target audience. If you skip this step and find that your samples are too large or too small, then remakes will be chargeable. If, however, we make any obvious mistakes, remakes will be free of charge.

We can easily and quickly grade up or down by half or a full size on request.

Using our software, it's easy to make minor edits, such as making a bikini bottom more Brazilian.
