# SWIMWEAR IN A NUTSHELL

This Guide offers the simplest & fastest way to start your own Swimwear brand using high-grade Luxe quality recycled fabrics in your Collection.

Whether you're selecting to work with your own custom designs or some of ours, it's all quite simple these days to get up & running working from home in a couple of months max.

As we know, selecting a manufacturer can be a nail-biting experience as nobody wants to pay more than needed, nor wait months for orders to arrive. With fabric in our hands, ready to cut, bulk orders are being packed and boxed, ready for pick up by DHL within four weeks.

We import our fabrics via weekly flights from Carvico in Italy, such as Vita, a fabric blended using Xtra Life Lycra & ECONYL<sup>®</sup> Yarns, as well as REPREVE<sup>™</sup> from the U.S.

At any time, you can always come back & click the links below to speak to a specialist with any queries you may have & want to discuss.

# SUSTAINABILITY

By selecting us as your manufacturer, you can rightly claim your brand as sustainable & eco friendly, produced with a low carbon footprint. Virtually all the fabrics have been upcycled from salvaged ocean waste, such as reclaimed Nylon fishing nets & discarded plastic bottles, keeping our oceans that much cleaner.

# MOQ

## Minimum Order Quantities

We offer a low MOQ of 30 units per style, 3 per size & colour & 300 units or 150 Bikini sets.

For example, a selection of 10 designs in several colours &/or prints across 3 or 4 sizes.

Bulk timelines will be confirmed when you place your order.

Read more about our [minimum orders](#)

# COSTING YOUR DESIGNS

To price your Collection, all we require to know are what designs you want to be produced in what fabric/s, in plain or print.

If you're selecting a mix of your own custom designs & some of ours, contact us via the links below & we will assist.

We offer three ways to hand over. Select which way suits you best & should you have another way you feel is more suitable, use it.

- 1.The most popular way is adding screenshots, tech packs, or line drawings with some notes in a Word or PDF Doc. sent via [email](#) or [WhatsApp](#).
- 2.If you're selecting from our Ready To Go Collection, add them to this [Form](#) & [email](#) them over.
- 3.You can also drag & drop your own custom designs to our [Costing Page](#)

Once received, in two to three working days, we will send back the best possible price, with any questions raised, answered.

## LOWEST PRICE

Since we own the only Tax-Free license in Bali, we save 40% on production costs while adding high-quality recycled fabrics from the U.S. and Italy. All other suppliers on the island will have to add these huge costs to any purchase order raised.

### Notes

- Our invoice values for an order of 300 units will only buy you 200 from any other Bali Swim supplier. Get an idea of how we price in our latest 2023 [Ready to Go Collection](#)
- You can expect to mark up around 400% on the prices we will offer.

# CUSTOM MADE SWIMWEAR

Whether seamless, reversible or double-sided designs, every article is expertly stitched in teams using speciality machines to ensure cups sit properly, wires never breakthrough, straps won't twist or buckle with every stitch following the exact contour of each design.

Patterns are created digitally using 2D AutoCAD software, far more accurate than working with traditional paper patterns.

# READY TO GO DESIGNS

Our latest Collection of ready to go designs was assembled with our in-depth knowledge of what's trending, selling hard & fast for the summer 2022 season.

If you're seeking some inspiration, click the video below to see all the designs fitted on the models &/or download the Catalogue inc prices [here](#)

# CUSTOM BRANDING

For your brand to stand out from the crowd, swimwear should be custom branded. We require your logo, which we will use to mock up any artwork for your approval to be used for your inner label, washing instructions & sizing, branded metal clips & hygienic liners + any packaging requests.

Allow three weeks to process & land.

## Notes

We add your logo as a heat press to your samples using a small in-house printer for placement approval in black and white. For bulk orders, we import heat presses produced using higher-grade machines from overseas.

All heat presses must be in our hands before we start on any order.

Read more on [Branding & Accessories](#).

## SELECTING FABRICS

One of the most important decisions you'll make will be in selecting the latest trending colours in a fabric with the feel and texture you're looking for. Selecting your colours from our stocks or requesting we import them in affects the time required in production and the number of colours you can add, so choose wisely.

We carry a large variety of the latest trending colours in stock and can add any colour not in stock to be imported via weekly flights to Bali.

See the [huge array of fabrics](#) we hold in stock & others we can import for you on request.

# ADDING PRINTS

Most buyers now purchase their prints from online vendors such as [Shutterstock](#). This reduced a task that can be costly & time-consuming to one that can be completed in one hour at no more than USD 30.

Read more on how to add custom digital prints [here](#)

# MOCKING UP YOUR DESIGNS

Once you have received your prices & have paid for your samples, we mockup your designs, colours &/or prints free of charge, which is a great way to see more clearly what your final Collection will look like.

## Example Mock-Ups

# STARTER PACKS

Any starter pack offers you a huge advantage in knowing the quality you can expect your orders will arrive & how well our swimwear fits the body.

Inside each pack, we have added a great selection of high-grade accessories, most of which can be branded + a swatch of each fabric on our website & their corresponding laser copy colours cards. Feel the textures of each fabric & see the colours in person.

Probably the best investment you will make.

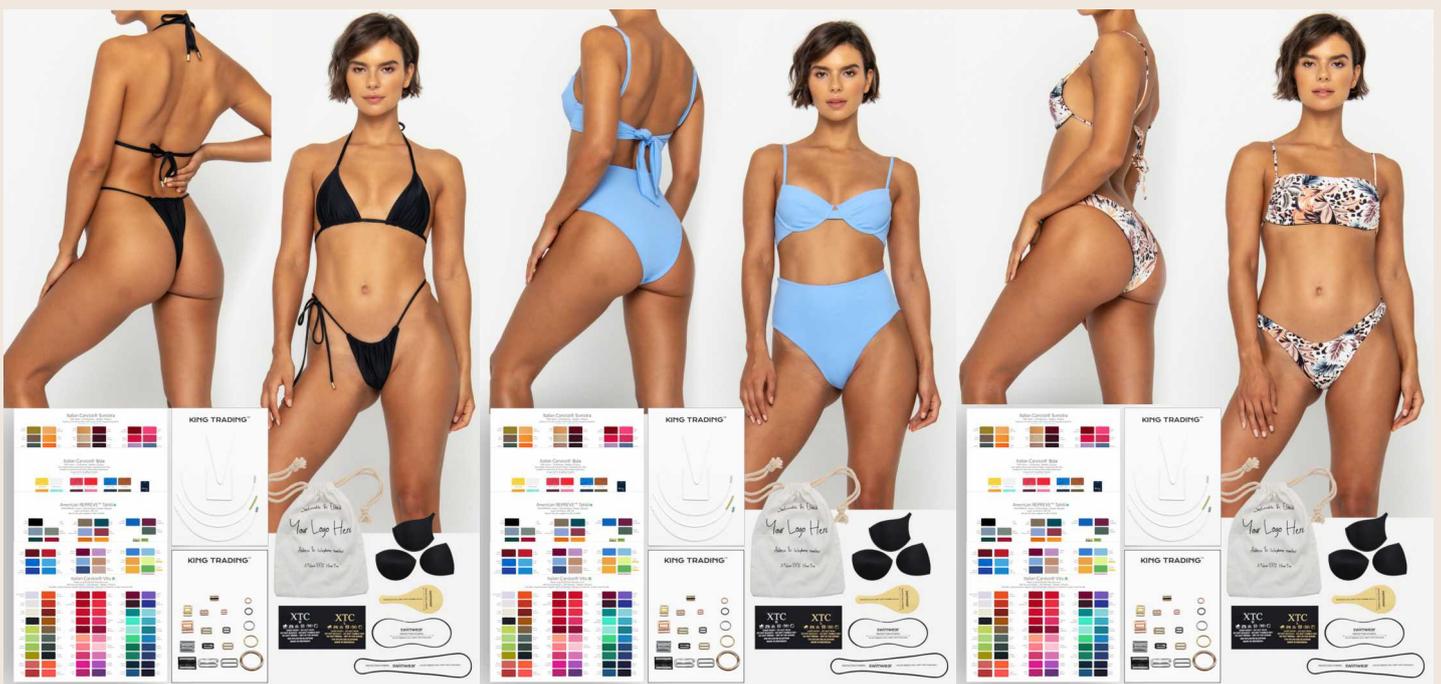

Price includes express courier to your door.

# BODY SIZE GUIDE

We create our patterns digitally, using state-of-the-art 2D auto CAD software, far more accurate than paper patterns, allowing quick and easy changes.

Please check the size guide to ensure our grading suits your target audience.

Model is wearing a size small

## CIRCUMFERENCES

You may require someone to assist you with this.

### A. BUST

Wrap the tape around the fullest part of the bust.

### B. UNDERBUST

Wrap the tape directly under the bust. Stand straight with arms to the side.

### C. WAIST

Wrap the tape around the narrowest part of the waist.

### D. HIP

Wrap the tape around the hip's fullest part, keeping your feet together at the crotch level.

## Measuring tips

Use a soft cloth tape & fit close to the body.

Don't flex when measuring & keep fairly straight but not too rigid.

[International Body Size Guide](#)

# TIPS & TRICKS

- Most brand owners choose fabrics from our stocks, as importing fabrics is more timely.
- Have your brand logo to hand as this will be used to brand each design. As heat-presses take three weeks to import, get this sorted first.

# CONTACT US

So, we hope this has helped you in your decision making & trust we have covered all the main points you'll need when starting your own swimwear brand. Still have some questions?
