# READY TO ORDER COLLECTION

[www.swimwearbali.com](http://www.swimwearbali.com)

# YOUR BRAND IN 4 WEEKS

Our Collection of ready-to-order designs was assembled using some of the best-selling shapes of 2022 as well as our knowledge of what's trending well into the Spring of 2023. If you're seeking inspiration in designing your Collection, this is a great place to start. To make our Collection individually yours, we simply need to add a branded heat press logo to the inside back of each article.

After you have gone over our styles & have selected the designs you love, you need to decide on what fabric & colours & or prints you want them produced in. Once done, all that's left to do is to fill in this form & send it back to us.

Once received, we'll get back to you confirming your selection, including prices & total costs.

Whenever you're ready, we can get started producing your samples.

## Notes

- Any design can be produced in any fabric, colour or print, making the possible combinations virtually limitless.
- Should you request alterations, like making a bum coverage more moderate or cheeky, adding cups, wires, etc., in most cases, we can accommodate.
- If you select your designs from our Catalogue and choose your colours from our stocks, orders are being readied for dispatch in just four weeks. This has to be the fastest way to get up & running in your own sustainable swimwear business.
- We require your branded Logo to heat press each article as soon as you are committed to working with us.

You can see most of our designs shot in our [Campaign Video](#).

[How to create a branded Logo](#)

---

A woman with long, wavy brown hair is posing in a white and black one-piece swimsuit. She is standing in front of a light-colored stone wall with a palm tree and a white building with an arched window in the background. The image is part of a promotional email for swimwear.

# READY TO ORDER COLLECTION

*Our latest Ready To Order Catalog is  
now ready to order.*

SS/23-036

Cotton : \$ 18.90

Rayon : \$ 19.99

# HOW TO ORDER

## STEP 1

# BRANDING YOUR COLLECTION

1. The first thing we handle is your brand artwork you're looking to add as a heat press into the inside back of each article.
2. We require this sent over ideally in Vector format in either EPS, PDF, CDR or JPEG, high resolution 300 dpi, as soon as you are committed to working with us. If you struggle to do this, send us what you have.
3. Also, we can brand metal clips,hygienic liners & packaging, adding some bling, quality & style to your Collection.

## STEP 2

### SAMPLING OR DIRECT TO BULK?

Even though our ready-to-order collection has been patterned & graded to international body sizes & checked on a Fit Model, some clients still request actual samples. If that's you, we charge twice our estimated price, plus a USD 30 management fee per style.

For example, a bottom at USD12, is  $2 \times \$12 + \$30 = \$54$ .

Once you place your bulk PO, we credit back your management fee.

#### Time Line to Produce

By far, the fastest way to work is to select your fabrics & colours from our imported stocks, seeing your bulk PO landing on your doorstep via DHL in 4 weeks.

This is the most popular way start-up brands get started into their own sustainable swimwear brand today at the lowest costs.

If you're looking to add some prints or requesting colours to be imported, allow an additional 2-3 weeks.

We always suggest checking [our Body Size Guide](#) to ensure our grading fits your target audience.

## STEP 3

# SELECTING FABRICS

One of the most critical decisions will be the fabrics & colours & or prints you select to make your designs in. As we keep 50,000 meters of the latest trending colours in stock makes, selecting from our colours has become the number one choice for many start-up brands on smaller budgets. Saying that it's also quite common to see new brands select one or two colours or prints to be imported.

Colours not in stock are added to our weekly flights into Bali.

See the [huge array of fabrics](#) in stock & those we can import.

As selecting your fabrics without feeling what's available can be tricky, we suggest [purchasing a fabric pack for \\$65](#), which includes one real fabric swatch of each of the fabrics on our website & corresponding laser copy could cards.

Importing fabrics come in rolls of 70m & have to be used in total in your bulk PO

## ADDING PRINTS

We notice brands who add prints to their collections are gaining a faster foothold in the market. This could be for several reasons. Firstly, prints for 2023 are back on trend. Also, we are the only company in Bali offering a digital print service on Nylon; all others only offer a sublimation print on Polyester, never as soft as digital on Nylon, & colours nowhere near as true to the eye.

Digital print colours never fade or wash off. Allow 2 to 3 weeks to process

Purchase prints online can reduce a task that's both costly & time-consuming to one that can be completed in one hour or so at a fraction of the cost.

Read how to add [amazing prints for a few dollars](#) in a few simple steps.

Lastly, if you're short on time and looking for a speedy solution, we print via sublimation in Bali using VITA PL/ECONYL®, recycled Polyester from Carvico.

Requires 2-3 days, whether samples or bulk.

## STEP 4

# PRICING YOUR DESIGN EITHER OURS OR YOURS

Once you have selected your designs, please take note of the codes & the fabrics, colours & or prints you want them produced in.

1. Selecting from our Ready to Go Designs - Send over your order via our [Bulk Order Form](#) or [Sample Request Form](#)
2. Adding some of your own custom designs to some of ours – Fill in the form above & send you designs as screenshots, tech packs or links with notes added in a Word or PDF Doc via [Email](#) or [WhatsApp](#).

In 2-3 days, we'll get back to you with your prices & any questions answered.

[Download a PDF](#) explaining how top brands add their plain colours into their prints creating a look that's both harmonious & beautiful.

ADDITIONAL INFO

# MOCKING UP YOUR SELECTED DESIGNS

Once you have made a payment, we mock up your Collection free of charge.

For the scenario below, we selected four bikini sets, a one-piece & two coverups.

These were then placed on a 2D model in some hypothetical colours & prints.

Being able to see your designs, colours & or prints in virtual 2D allows you to visualize more clearly, what your final Collection will look like on.

## Example Customer Selection

Designs selected from our Catalogue

SS/23-003

SS/23 - 031

## Final Collection shot on a model

### Notes

- We never add surcharges; you'll only ever be charged the prices shown.
- Custom branding & freight are charged in addition.
- Bikini sets can be ordered as seen or as a mix.
- Should you request any style made reversible, we add a tear-away label.

To see a full mock-up branded in more detail, go [here](#)

## Notes

Adding high-quality accessories to your Collection will play a huge role in your brand's final look, increasing sales & ultimately, your success.
