Ready to Go Catalogue

Our Collection

Ready To Go Designs

The ready-to-go collection has all been selected from the most popular styles ordered in the final quarter of 2021; all pre-patterned & graded to international sizes. For the collection to be uniquely yours, we simply add to the inside back of each article a heat press bearing your logo, washing instructions, and size information.
Any of our designs can be altered, for example, bum coverage can be modified to look more Brazilian, or cups and wires may be added to tops.

3 Ways to Work

1. The quickest method is to choose your design from our Shop, all of which have been made in recycled Vita from Carvico in Italy in white size small. Following payment, your collection will be ready for dispatch within three business days.
2. Samples can also be made in other fabrics, prints, and sizes upon request. We can produce your order in 3-4 weeks if you choose your colours from our stocks. If you're requesting colours to be imported, some extra time will be required to import. Info on request. You can place a sample order by adding your selected designs, fabrics, colours, sizes and how many pieces to the Sample Order Form
3. Production - If you have a limited amount of time and want to reduce costs, you may choose to skip sampling and proceed directly to production. A growing number of customers prefer this way of working, as in the main they can see that our quality will be the same as in the catalogue or video. You may place a bulk order by adding the design, fabric, color, size, and the number of pieces to a bulk order form

NOTE
Additionally, you may add your own custom designs to our ready-to-go collection. Some people may prefer to send over their orders via email simply listing the styles or adding images etc. Upon receipt, either the same day or the following day, our team will follow up to ensure that you are satisfied and ready to proceed.

Custom Branding & Accessories

We add your custom logo to the inside back of every article using a heat press. In addition, we can custom brand your metal clips, hygienic liner & custom brand cotton bags. Upon request, additional heat presses can be applied to the front side of any article.
Samples are branded in-house using a small heat press machine for the sole purpose of checking the layout and logo.
Read more on Branding & Accessories.

Note
This is an important section that should not be skipped or your bulk PO's may take several weeks longer than expected.

KT 32964

Square Neck Top
