READY TO ORDER COLLECTION

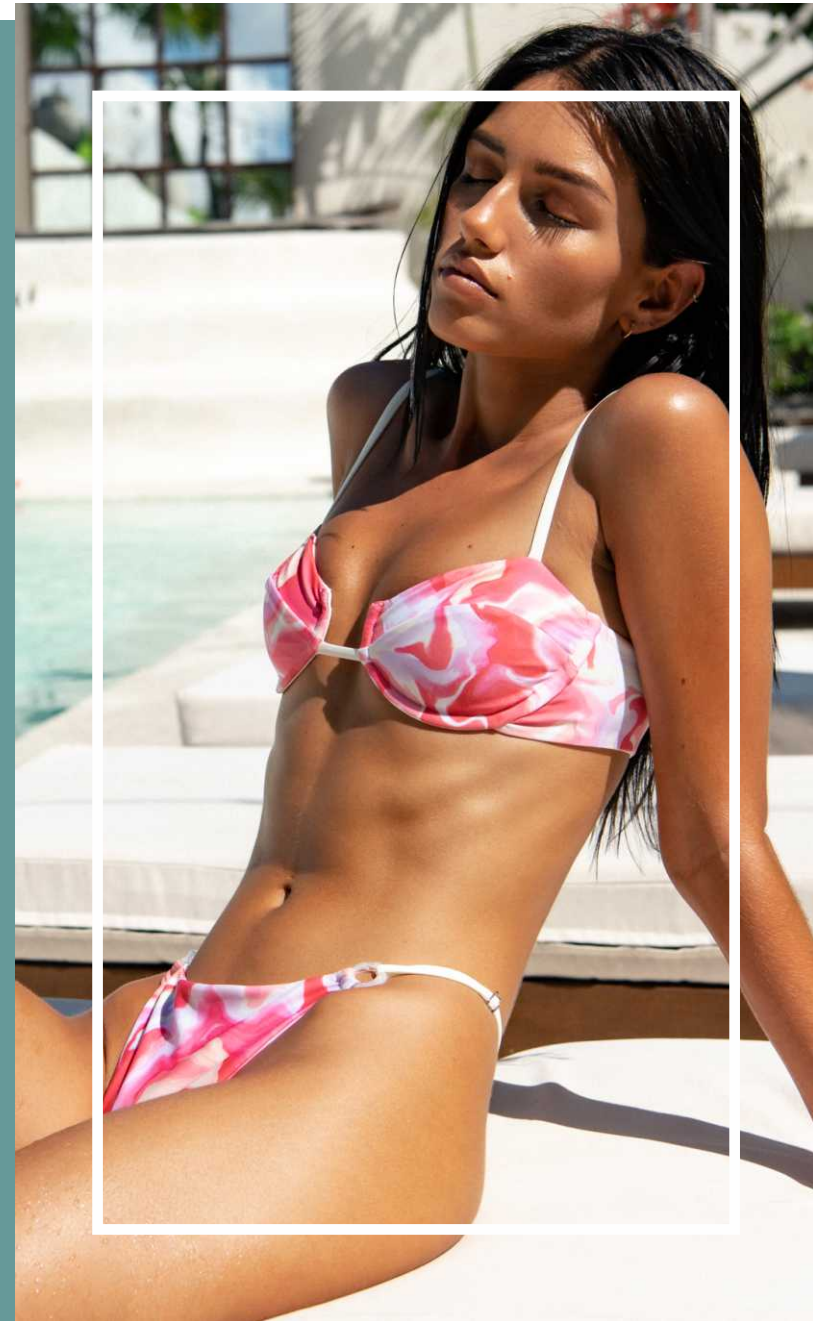

www.swimwearbali.com

YOUR BRAND IN 4 WEEKS

Welcome to our Spring Summer 2023 collection, assembled from some of our latest best-selling designs, as well as our knowledge of what's trending well for Summer 2023. Any design can be produced in any fabric, colour or print, allowing you to assemble a unique collection with endless possibilities.

Once you have your selected designs, fill in either the [samples request](#) form or [bulk order form](#) and send it back. We will then check your data to ensure all points are clear and offer some suggestions that you may find helpful. Once you're ready to start, we will require your logo to heat press your brand name into the inside back of each article.

Being in Bali & producing for brands like yours for over 30 years has taught us that the key to any brand's success lies in a perfectly produced collection while simultaneously keeping costs to a minimum. Helping brands become established in an ethical & sustainable way is something we have done for hundreds of brands; could yours be next?

Notes

- All our designs have been patterned and graded digitally to International body sizes, far more accurate than paper patterns. All have been fitted on a professional fit model.
- Should you request alterations, like making bum coverage more moderate or cheeky, adding cups, wires, etc., in most cases, we can accommodate for a fee of \$30.00 USD

PRODUCING SAMPLES

Selecting from our ready designs, we only charge twice our Bulk price; for example, a bottom priced at USD \$12,00 USD becomes $2 \times \$12 = \24.00 . We never add surcharges or additional costs unless you're requesting branded accessories.

Working from stock colours, allow two weeks from the order to uplift to any overseas address via DHL.

DIRECT TO BULK

Skipping sampling & moving directly to your bulk PO has become increasingly popular due to the speed at which orders arrive; nothing worse than seeing sold out on your website or in-store.

As long as our International Body Size Guide works for the market you're selling to, producing samples is not necessary in most cases. However, this is always your choice.

If you're selecting your colours from our stocks, bulk orders are being dispatched in most cases in just four weeks. This has to be the fastest possible way to get up & running in your own sustainable brand.

Requesting colours to be imported, timelines on request.
